PROFESSIONAL SUMMARY

Data Analyst who pivoted from an administration background into business intelligence within a year, now known for catching errors and inconsistencies that others miss before they reach a final report. Experienced leading analytics teams under live scrutiny, mentoring other analysts, and building dashboards from raw, unclean data. Open to remote or Lagos-based Data Analyst / BI Analyst roles.

TECHNICAL SKILLS

Tools: Power BI, DAX, Power Query, SQL, Microsoft Excel (Advanced), Data Modeling, ETL

Analysis: Data Cleaning & Validation, KPI Development, Trend Analysis, Dashboard Development, Business Intelligence Reporting

Professional: Stakeholder Communication, Team Leadership, Analytical & Critical Thinking, Mentoring

PROFESSIONAL EXPERIENCE

Team Lead & Business Intelligence Analyst

Aug 2026

Databeauty Tribe Business Challenge — Competition Project

- Led a 5-person analytics team to 1st place, uncovering \$25.65M in revenue leakage (5% of gross revenue) by auditing discount and rebate data across 5,015 transactions.
- Diagnosed a misleading 13.7% target-achievement figure down to its root cause — only 21% of planned product-region markets had any sales activity — and corrected it to a defensible 63% achievement rate.
- Directed the team's data validation process, personally isolating a hidden calculation error in the Profit column before it reached the final dashboard.
- Presented findings live to a judging panel, successfully defending every metric under direct questioning.

Data Analytics Mentor

Jul 2026 – Aug 2026

STC Job-Ready Data Analytics Mentorship Program (Cohort 4) — Skills To Career

- Mentored 7 aspiring analysts from the finance industry through a real-world capstone analyzing the Bank of America Customer Complaints dataset, reviewing dashboards for data accuracy, DAX logic, and Power Query transformations.
- Coached mentees on translating raw complaint data into business-ready insights, building on my own experience as a Cohort 3 graduate of the same program.

Data Analyst Tutor

Nov 2025 – Present

Digital World Tech Academy | Full-Time

- Reviewed and validated Power BI dashboards for 50+ aspiring analysts, ensuring data accuracy, DAX logic, and Power Query transformation quality.
- Guided learners through data cleaning, dashboard development, and KPI reporting using real-world datasets, moving instruction beyond tool syntax to business-stakeholder thinking.
- Collaborated with mentors to review analytical projects, delivering feedback that improved dashboard usability and insight delivery.

PROJECTS

Massachusetts General Hospital — Patient Analytics Dashboard

Power BI | Microsoft Excel | Power Query | DAX — End-to-End Business Intelligence Project

- Cleaned, validated, and modeled 28,000+ patient encounter records (2011–2022), then built a four-page interactive Power BI dashboard covering KPIs, demographics, treatment cost, and payer analysis.
- Identified uninsured patients as the highest financial risk group (\$49M in treatment costs) and found inpatient readmissions rose from 12% (2020) to 27% (2022), flagging cost and quality improvement opportunities.
- Determined Myocardial Infarction as the highest-cost procedure (\$66K average per encounter), supporting data-driven resource recommendations.
- Earned the Best Presentation Award (Skills To Career Mentorship, Cohort 3) for data storytelling and business recommendation delivery.

EDUCATION

Bachelor of Education (B.Ed.) — Secretarial Administration Education

Olabisi Onabanjo University | 2024 | Second Class Upper
